1. Background

Asansol Engineering College (AEC) is a self-financing institution that was established in 1998. It is located in Asansol, West Bengal, currently, offers eleven undergraduate engineering programs, and three post graduate programs in various disciplines. Institute also offers 4 years BCA and BBA programs. The institute has received autonomy in affiliation with MAKAUT from the academic year 2024-25 and all its programs are approved by AICTE. Moreover, AEC is recognized by the UGC under section 2(f) of the UGC Act, 1956.

It is noteworthy that the institute has the distinguished honor of holding a prestigious NAAC 'A' accreditation, along with NBA accreditation for three of its undergraduate engineering degree programs. In 2023, the institute received significant recognition in the NIRF Innovation Rankings. Additionally, it has consistently been acknowledged as one of the leading institutions in Eastern India by various ranking agencies.

The institute boasts a well-established Research and Development (R&D) cell that actively fosters collaborations, workshops, conferences, and seminars at both national and international levels to strive towards national sustainable development goals (SDG). These endeavors receive strong support from the knowledgeable faculty members, dedicated students, and accomplished alumni. Furthermore, the institute takes great pride in its efficient Training and Placement (T&P) Cell, which tirelessly works throughout the year to ensure the best placement opportunities and career prospects for its students.

The presence of student chapters in various departments and diverse clubs within the institute plays a vital role in organizing informative technical events all year round. These events contribute to the overall development of the students and provide valuable insights beyond their academic pursuits.

In addition to academic endeavors, the institute places great emphasis on co-curricular and extra-curricular activities, recognizing their significance in nurturing well-rounded individuals. These

activities foster the holistic development of the students and provide them with exposure to a wider world of learning.

Committed to its mission of excellence, AEC is widely acknowledged as a prominent hub of knowledge, attracting the finest talents across the country. The institute is known for producing exceptional students who consistently achieve top ranks in university examinations. The faculty members of the institute bring a wealth of diverse teaching and research experiences. The management team of the institute is philanthropic, prioritizing both social welfare and the education of their students.

Asansol Girls' College is 'B++' accredited by NAAC and prestigious college in the industrial belt of Asansol, Paschim Bardhaman district, West Bengal, India. It offers undergraduate courses in arts, commerce and sciences. It came into existence in 1950 mainly as a result of untiring effort of Dr. Lalit Mohan Sen, the then CSO, mines board of health and his worthy consort Smt. Kamala Sen. Initially, the College was affiliated to the University of Calcutta. After Burdwan University started it became affiliated with that university and now, the college has been affiliated to Kazi Nazrul University. During the difficult years of its adolescence, the college was fortunate to have Dr. Anjali Roy as its principal. This is a premier college for highest academic standards, different educational programs, grand faculty, and various co-curricular activities and modern infrastructures. The College provides hostel facility to the students from distant places. There are two hostels - Unit I (Anjali) and Unit - II (Nivedita). Today, it has become high spirited institution for learning.

2. Purpose and scope of responsibilities under this MOU

This MOU is established to promote mutual cooperation between Asansol Engineering College and Asansol Girls' College in the area of Education, training, research and community engagement where by both parties benefited. Corporation between the parties shall be carried out subject to the approval of both parties and on the basis of reciprocity.

With this partnerships agreement the two parties have agreed to collaborate in areas that are of mutual benefit, including but not limited to:

- ✓ Inculcating innovation and entrepreneurship activities
- ✓ Community engagement and outreach activities
